ILLEGIB

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Inspector General Cables

REFERENCE : Memo dtd 10 Mar 1964 to D/CO fm DD/S,
same subject

1. Attached is a copy of a dispatch that is being forwarded to the Communications Area Chiefs regarding the handling of Inspector General cables by the field communications personnel.

2. The appropriate technical communications documents are being revised to reflect this procedural change.

25X1

Director of Communications

Attachment:

Cy of dispatch dtd 12 Mar 64 to
Commo Area Chiefs, same subject

S E C R E T

Chief, KUCIUB
Operational
Inspector General Cables

- 25X1 1. KUDAT [] is a cable indicator identifying sensitive Inspector General traffic and provides privacy of communications for those Inspector General functions that must be conducted on a highly confidential basis.
2. The Director has authorized the Inspector General and traveling Inspector General personnel to originate and receive particularly sensitive cables on an "EYES ONLY" basis in the field. The appropriate KUDARK regulations are being revised to reflect this change.
3. To implement this change immediately, the Communicator should be given the following KUCIUB instructions:

25X1 a. A KUDAT [] cable addressed to a traveling inspector will be received by him from the Communicator on an "EYES ONLY" basis. If for any reason such a message cannot be delivered directly to the Inspector, the originating station will be so advised and the cable will be destroyed.

25X1 b. Traveling Inspector General personnel are further authorized to originate KUDAT [] cables and to release them to the Communicator for transmission.

c. The Communicator should follow the instructions of the traveling Inspector regarding distribution and filing or archiving of both incoming and outgoing [] cables.
